CV TEMPLATES

Enclosed are three CV templates. Very generic CVs do not appeal to employers (which is a major reason not to use CV templates) so we suggest you personalise your CV as much as possible so that it stands out. As discussed elsewhere in the advice section a CV is a key selling tool so use these templates as a starting point to a better CV. It is important however, to add an element of individuality to the final document.

For more advice on CV writing, find us at www.theinterviewcompany.com or call us on 0113 2777 583.
